Holistic Wellbeing Resources
Are a Few Taps Away

The Navigate Wellbeing App is now available as a free download in the Apple App Store and Google Play App Store!

The convenient and easy-to-use app is a perfect complement to your wellbeing program that allows users to:

- Easily track health-activity behavior (step count, activity minutes, nutrition, hydration and sleep hours).
- Complete your group challenge tasks by tracking behavior.
- Send encouragement to one another in the Message Center.
- Seamlessly link their wellbeing portal for access to full resources: program overviews, recipes, videos and anything else someone might need while on the go.

The app syncs with the portal, so up-to-date information is always available from either a mobile or laptop. It is also free to use, so make sure you take advantage of this great new resource!

## **How To Login**

- Use your wellbeing program username and password.
- If you don't remember your username and password, you can visit your program's website to recover them.
- For users who connect directly, without a username and password visit the account settings page of your portal to generate a mobile login code.
